

Top Ten Selling Artists

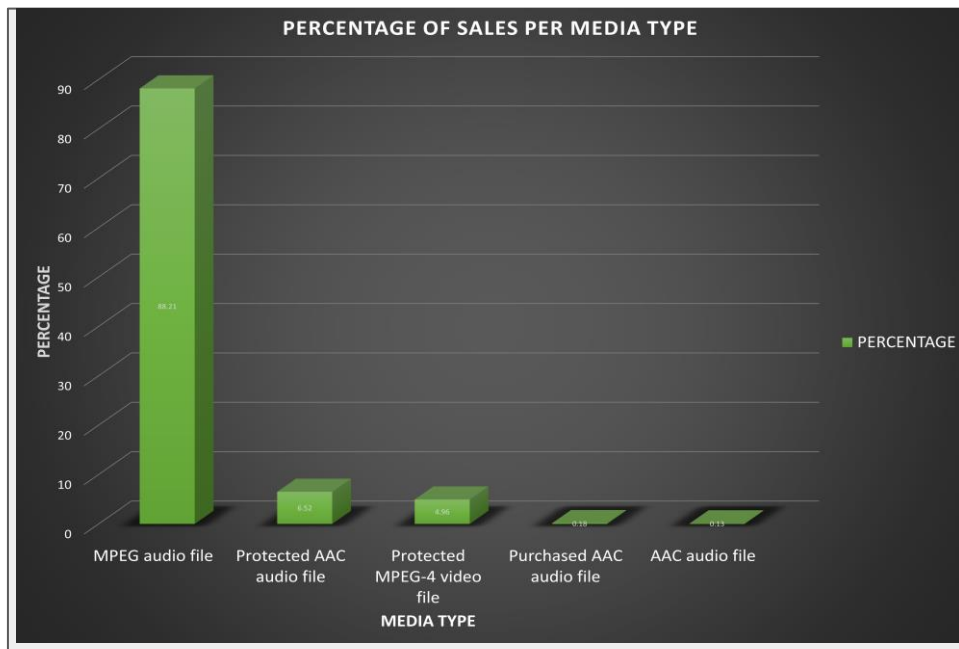

Iron Maiden secured the top position with the highest number of tracks sold, surpassing U2, which achieved 102 track sales. Eric Clapton and R.E.M. are situated at the bottom of the ranking.

TOP 10 HIGHEST PURCHASING CUSTOMERS

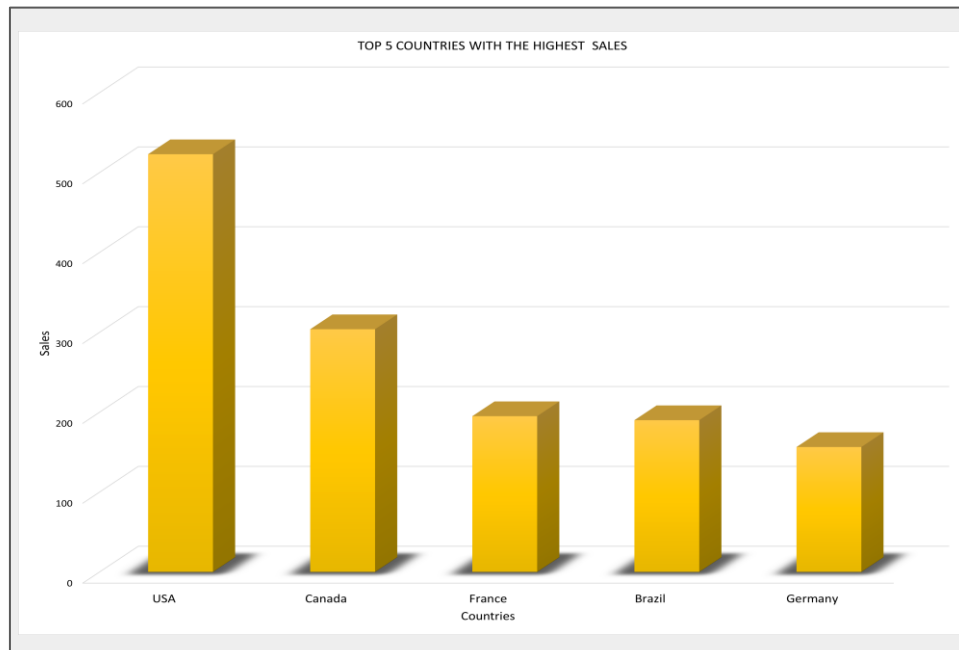

The provided graph illustrates the top ten customers ranked by their total purchase amounts. Among these customers, Victor and Astrid had the lowest purchase rates, both at 42.62. Conversely, Helena emerged as the top spender, with the highest purchases amounting to 49.62.

PERCENTAGE OF SALES PER MEDIA TYPE

The graph illustrates the distribution of sales across five different media types. Notably, MPEG audio files dominate the sales, accounting for approximately 99% of the total. In contrast, both purchased AAC audio files and AAC audio files contribute to less than 1% of the total sales.

TOP 5 COUNTRIES WITH THE HIGHEST TOTAL SALES

The chart illustrates the countries with the highest music sales, highlighting the United States as the leader with sales totaling 523.06, followed closely by Canada at 303.96. In contrast, Germany reported the lowest sales, amounting to 156.48.
